

PITCH&PUTT WORLD STROKEPLAY CHAMPIONSHIP 2017

Le Robinie 30.03-02.04

PITCH & PUTT

Le Robinie 18 holes Pitch&Putt course is created for the satisfaction of all golfers, from beginners to experienced.

International Pitch & Putt is an independent, competitive sport derived from golf. This great short game is similar to golf. The maximum hole length for international competitions is 90 meters with a maximum total course length of 1,200 meters. Players may use three clubs; one of which must be a putter. The game is often played from raised artificial teeing surfaces using a tee and it has its own handicap system distinct from golf.

Le Robinie Golf Club & Resort

- The unmistakable imprint of the 'Golden Bear' Jack Nicklaus, **meticulous and obsessed**, amended and corrected many of the 18 holes to obtain the result planned in his ingenious project. A challenging field, not "punitive" where you can play at any level (five pitches are the starting point for each hole) and where anyone, **from amateur to professional**, can draw satisfaction: the variety of design of the trail urges players to practice any kind of coup. More of hundred golf courses in the world signed by Jack Nicklaus, but only one in Italy, this! A masterpiece already considered among the best in Europe.
